EXPERIENCE

JPMORGAN CHASE & CO | Software Development Intern
Apr 2020 – May 2020 | Virtual
- Identified bugs in the code and made the program functional.
- Projects were based on Computer graphics algorithms .
- used JavaScript ,python backend and HTML,CSS as frontend.
- Complete software deployment was done

Intellify | Subject Matter Expert
March 2020 | Online
- Platform for underprivileged by IIT Delhi
- Created syllabus for the course and monitored other teams.

CERTIFICATION

GOOGLE IT AUTOMATION WITH PYTHON
- Crash Course On Python,TDPHK2LFJ5PR
- Using Python to interact with OS,4QAPJGJNWEQZ

NPTEL
- Introduction To Algorithms and Analysis-(73%)

PROJECTS

DRS SYSTEM | Python
- Developed a DRS system using tkinter and python.
- Functionalities of playing video in slow mode and fast mode.

ECOMMERCE WEBSITE | Html,Css,JS
- Designed a e-com website for furniture shopping with Functionalities like add to cart , inc/dec in quantity etc.

SKILLS

TECHNOLOGY
- Windows• Linux|UNIX
- Git/GitHub • MS-office • Shell
- Computer Networking

PROGRAMMING
- C/C++ • Python • Java
- JS • HTML • CSS • MATLAB

RESPONSIBILITIES

Quiz Head in college, Organized Programming Competition in college , Hacktoberfest cleared, Organized and won Chess competition ,Google cloud ready facilitator program cleared

COURSEWORK

UNDERGRADUATE
Computer Networks, Operating Systems, Computer Architecture Organization , Data Structures and Algorithms , Compiler Design, Web technology ,Artificial Intelligence , Software engineering ,Algorithms design and Analysis, Database Management Systems, Computer Graphics, Object Oriented Programming Language
